Safety re-defined

Finger proof terminals eliminate chances of accidental contact with live part. You can install, operate and maintain modular device with total confidence.

Energy limiting class - 3

If fault occurs, the Rapid Arc Quenching mechanism in modular device operates and extinguishes the arc quickly (within 3-5 msec), ensuring lowest possible energy flow through the circuit. This minimize risk of fire and maximizes life of your equipment.

Safety meets superior aesthetics

Ergonomically designed, profiled for superior cooling and manufactured with fire retardant material. Modular device is brought to you keeping in mind utmost user safety.

Key Benefits

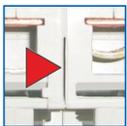

True contact indication

E&A modular device range enhances safety through true contact indication even from a distance regardless of its mounting and knob position. Red and Green indication tags provided below the knob positively identify the electrical ON/OFF status, reflecting actual contact status.

Integrated label holder

E&A MCBs are equipped with label holder for easy identification of circuit during operation as well as in maintenance.

Innovatively profiled breathing channels

When two or more poles are placed adjacent to each other, the breathing channels are so profiled that the air circulates around individual pole, resulting in cooler operation.

Large terminal size and Biconnect

Exora MCB's can easily accommodate cables of up to 35 sq.mm. Biconnect terminals offer convenience of connecting both cable and bus bar.

Two position DIN rail clip

Installation on a DIN rail is further simplified with a two-position DIN rail clip as a standard feature. E&A MCB range makes mounting on a standard DIN rail more convenient .

Non-welding contacts

Silver Graphite contact tips ensure higher life and maximum safety against contact welding due to its superior anti-welding properties, enhancing safety and life of the system.

Combihead screw

E&A modular devices with combihead screws, allow you to use standard as well as Philips head screw drivers. E&A modular device range addresses your undefined needs.
